LAB ID: 12157

April 01, 2022

MS. KIMBERLY WILLS  
NEW ENGLAND BIOASSAY INC.  
77 BATSON DRIVE  
MANCHESTER, CT 06042

Dear Ms. Wills,

A revised certificate has been generated because of the change(s) listed below.

If your laboratory has applied for a change in the laboratory's location and/or technical director, the approved change(s) will be reflected on the certificate.

If the changes to your certification are due to insufficient proficiency tests and/or proficiency test failures, the expired certificates must be returned to the Environmental Laboratory Approval Program (ELAP) office within 10 days of the date of this letter. In addition, your laboratory must investigate the root cause for any insufficient and/or unsatisfactory proficiency tests and keep this on file for review during an onsite assessment. Also, the laboratory must provide a corrective action report to ELAP within 30 calendar days of a request by the program.

**In addition, your laboratory must investigate and document the root cause for any insufficient and/or unsatisfactory proficiency tests. If your lab lost accreditation due to two PT failures, you must submit the corrective action response to ELAP for review before accreditation will be re-instated.**

AppCat	Analyte Name	Method Name	Comments	Date
NW - NELAC	Fathead minnow-Pimephales promelas	EPA 1000.0	Raised to Approved	04/05/2022
